

Person Centered Tech Telemental Health Program

On Thursday, July 28th, 2022

This document certifies that

Eileen Potter

has completed a course of study sufficient to satisfy the requirements of Person Centered Tech's Telemental Health Certification Program.

Signature of Person-Centered Tech's Director (B. Roy Huggins):

Dated: 07/28/2022

Topics of Study

Telemental Health-Specific Ethical Issues • Issues of Practice Regions & Jurisdictions (e.g. cross-state practice) • Video Presentation Skills • Safety and Crisis Planning • Client Orientation Needs • Informed Consent Needs • Technology Choice and Practice Tech Needs • Working With Third Parties via Telemental Health • Telemental Health Reimbursement • HIPAA Security, Technology, and Compliance Standards • Practical Device, Network, and Cloud Service Security Techniques • Practical and Legal-Ethical Applications of Encryption & Authentication • HIPAA-Compliant Security Risk Analysis Techniques • HIPAA-Compliant Risk Management Strategies

The person named on this certificate has completed a course of training -- adjunct to the training necessary for a licensed mental health professional -- that is suitable to competently perform telemental health services. The program focused on services delivered via videoconferencing. To learn more, or to speak with a Person Centered Tech staff member about this certificate or the program, please visit:
